

Where is Currier Island?

Currier Island is a country in the making. Brainchild of Ivan Cestero for 2004 BULA World Championship in Portugal, it has become the pickup team for players that don't have a country to play with. They will represent 'Currier Island'. Currier Island can never make it to the semi-finals, but they will bring excitement and fun to the Championship :-). For more information, check out their website at www.currierisland.com
