

Pre Championships parties in full swing

Last Sunday the first players arrived and the parties started. Boracay island is just an amazing place. Great bars, scenery, and lots of activities for all players: Scuba diving, the Zorba ball (people are put in a large ball and rolled down a hill), Kit surfing, etc...The Boracay Dragons are great hosts and all the players are in a great mood and are looking forward to 3 days of competition and 6 nights of partying. It is unfortunate that Beach Ultimate is not yet a priority for many Asian countries. In the end only Australia, the Philippines and an international pickup team playing under the New Zealand flag made the trip. A delegation from Goa is also present. However no one seems to mind the reduced number of countries present and the general consensus is that all the other countries are just missing out on this great opportunity to play in paradise. Tomorrow the first games will start. Two days of competition to compete for a later first game on Saturday. Saturday is the final day and the results of that day will determine the champions in the Open and Mixed division.
